[SPECIAL DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO NOVEMBER 12

CABLE DISPATCHES

Severe Battle at Orleans A French Victory

LONDON, Nov 10 —A special from Tours of the 10th says At length the French armies have achieved a triumph Von Der Tann who was at Orleans with 20 000 men became afraid his position might be hemmed in between the corps of the army of the Loire on the north bank of that stream and the seventeenth corps on the south bank, and were confronted toward the west by bodies advancing from Chartres and Chateau Dun Von Der Tann was preparing to make a defensive retreat northward toward Paris when he was assailed by the sixteenth corps under Gen D'Aurelles After a severe engagement he was compelled to evacuate Orleans which was now occupied by the French The Prussian loss was 5 000 killed and wounded Pursuit of the retreating Prussians is now going on and the defeat and capture of the whole force is probable

A special correspondent telegraphs from Lille on the 9th at 6 P M that at the headquarters of Gen Bourbaki there is little agitation at the intelligence of the Prussian approach The enemy's movements are strictly concealed The Prussians are reported fifty leagues from the city Organization is proceeding rapidly The troops are said to be some of the best now in France The number is supposed to be 30 000

Lille has been fortified like Strasburg and somewhat resembles that city The inhabitants have been ordered to provide themselves with provisions for three months or leave the city

Further Accounts

LONDON Nov 10 —A special correspondent writing from Tours on the 9th, says the sixteenth corps of the army of the Loire under Gen Lussac will form in the forest of Marchenoir to morrow The fifteenth corps under Palidan is at Mer and the seventeenth corps is on the south bank of the Loire between Blois la Ferte and Nevers The whole army has 200 guns and is under Gen Aurelles

It is believed that Von Der Tann's army consists only of 25 000 men and that he is preparing to retreat toward Versailles

A special correspondent at Versailles under date of the 9th says letters were captured with seven persons attempting to leave Paris by balloon The correspondence seized, shows that Burnside abused the opportunity offered him to enter and leave Paris by bringing out an authorization from the Paris Government for a loan recently negotiated in London

TOURS, Nov 10 —The Prussians yesterday evacuated Orleans with great haste leaving 5 000 sick and wounded The day before the Prussians gained a success at Caulmiers The Prussians were strongly entrenched in position but were dislodged, suffering heavy losses Gen Von Der Tan retreated to Autenay The French moved forward to Joigny, where they will occupy a strong position until the army of the Loire moves entirely forward Gen Palidan reports to the Government that the battle which occurred two days ago at Marchenoir, was more important than at first reported The Prussian loss was 2,000 killed and over 1 000 prisoners were taken The French troops acted excellently One regiment of Chasseurs kept a large Prussian force checked until other French troops came up when the Prussians retreated

The journals of Lille announce that General Bourbaki who has not resigned has organized a large force

Other Dispatches via London

LONDON, Nov 10 —The capture of a German bark in the North Sea, by a French ironclad is reported

The Prefect of Saar has levied on the town a war contribution of 2 000 000 francs required by the Committee on National Defence

A special cable dispatch received to night states that the French fleet are bombarding Hamburg

A dispatch from Berne via Berlin reports that Garibaldi has surrendered

LONDON Nov 11 —10,000 workmen are employed at Lille on exterior and interior fortifications Orders have been issued to provision the city for six months The authorities having profited by the experience of Strasbourg and Paris the fortifications are considered the finest in Europe

LONDON, Nov 11 —The formal surrender of New Brisach occurred this afternoon

Late last evening a report was received here that the garrison of New Brisach had hoisted a white flag The rumor was confirmed to day by an official dispatch announcing the capitulation of the fortress yesterday afternoon 5 000 prisoners, including 100 officers fell into the hands of the Germans No guns were captured Dismantling has already commenced now that the French works on the opposite side of the river are all in German hands The heavy battery at Northtown has been removed The Baden artillery was thanked by the Prussian Government for its gallantry

A roundabout rumor from Berne and Berlin, which states that Garibaldi surrendered is fully discredited

The report published in the *Daily News* relating to the attitude of Empress Eugenie is pronounced false It is generally thought Prussia will prefer the annexation of Alsace and Lorraine to any guarantee Prussia's relations with Austria and Russia are not such as to render any guarantee of theirs acceptable

French Success Confirmed

BERLIN Nov 12 —Queen Augusta received the following from William yesterday dated—

VERSAILLES Nov 11 —Gen Von Der Tann yesterday retired from Orleans to Tours before a superior force of the enemy He fought all the way He has already been reinforced by General Whistich and Prince Ulrich The latter came up from Chartres The Duke of Mecklenburg Schwerin will join his forces to those of Von Der Tann to day

Circular from Bismarck.

LONDON Nov 12 —Bismarck has issued a circular to the representatives of North Germany in foreign States giving his version to the late negotiations for an armistice King William was even more eager for peace than Thiers Bismarck proposed a truce for four weeks (the respective armies to remain fixed) in order that elections might be held throughout France The only effect on the French side of this truce would be the stoppage of waste of ammunition from their forts Thiers regretted that the victualing of Paris was not provided for saying it was an indispensable condition of the proposed armistice This absurd demand to go back two months in the prosecution of the war was impossible Subsequently an offer for a short truce was made This was reported to the members of the Provisional Government by whom it was rejected The inference is that the French Government dare not consult the people and only made advances looking to peace in order to quiet the neutral powers

Paris not to be Bombarded

BERLIN Nov 12 —Dispatches received here to day from the German headquarters at Versailles announce that Paris will not be bombarded The German authorities are convinced that the city is totally provisionless its surrender may be expected within a month from that cause alone

Austria and Italy

FLORENCE Nov 10 —The Austrian Government has officially approved the Italian policy at Rome

Dispatches from Tours

TOURS Nov 11 —A dispatch just received is as follows We have taken possession of Orleans after a fight of two days Aggregate losses in killed and wounded will not reach 2 000 those of the enemy are much larger We have made more than 1 000 prisoners thus far and are continually adding to the number We captured two cannon of Prussian model 20 ammunition wagons and a great number of vans and provision wagons

TOURS Nov 11 —A dispatch from Chantilly reports a large French force there well supplied with artillery Troops from Lyons are marching to meet the prisoners

TOURS Nov 10 Rumors are circulating of serious combats east and west of Orleans, and it is reported fighting is continuing to day No official reports are published

Since the 6th inst, the villages of Vessetours Chermount and Laurenais, have been fired, and the Germans dislodged

TOURS Nov 10 —Keratry having organized the army of the west is forming a camp in Brittany for another army 100 000 strong

Lyons is preparing for defense and Toulouse is sending forward large numbers of troops fully armed and equipped Order prevails in both cities

A letter from Paris on the 6th says the news that the armistice had been rejected fell like a thunderbolt upon the populace A day of such general gloom has not been witnessed since the commencement of the siege The feeling of despair is stronger in the army

Shortly an attempt will be made with the 21 army to break the Prussian lines There appears to be no doubt that it will fail and then the cry for peace will become general, and so strong that the government will be obliged to listen

TOURS Nov 11 —Journals report that the Prussians have lost over 10 000 killed and wounded, and 1 800 prisoners, in battles around Chartres and Etampes

Bismarck's organ in Berlin justifies Bazaine in the surrender of Metz

Miscellaneous War News

LONDON Nov 12 —A correspondent telegraphing from Berlin announces the confirmation of the capture of Orleans It is also confirmed that Prussia has asked for a revision of the treaty of 1856

There is considerable excitement here over the rumor that a bombardment of Hamburg is hourly expected

The battle at Orleans was a very serious one

Rumors are rife of a rupture between Bismarck and Von Beust

The authorities at Tours do not regard the rupture of negotiations for an armistice as final

Senator Travitt and the Herald

From the Dalles Mountaineer

The Portland *Herald* says that Senator Trevitt from this county is responsible for the defeat of The Dalles and Sandy Road Bill in his anxiety to log roll the Portland Subsidy Bill through the House If we are correctly informed the Road Bill was defeated in the House before the Subsidy Bill was ever spoken of in that body We believe that if Mr Trevitt would lay aside his strong partisan prejudices and tell the whole truth about the Bill in connection with—not the Subsidy —but the Lock Bill he would make it uncomfortably warm for some parties inside the Democratic camp We have always opposed Mr Trevitt politically, and as he is abundantly able to take his own part when so disposed we will not defend him now We will say here however that we are sure his own constituents in this county are disposed to think him an honest and faithful public servant and to attribute the attacks of the *Herald* to the fact that he as Chairman of the Committee on Printing would not allow the proprietor of that paper who is public printer to rob the State with impunity

MONDAY MORNING NOVEMBER 14 1870

A French Victory

It appears that the French have at length won a battle of considerable importance. Their first victorious engagement took place on the 9th and 10th near the city of Orleans which resulted in throwing back one wing of the German army, with material losses in killed wounded and prisoners. This first interruption of the steady tide of German success appears to be very inspiriting to the French who begin to talk about dislodging the whole German forces from their positions and driving them out of France.

The success achieved amounts to little in itself, though it may have the effect to reawaken an enthusiasm among the French people and soldiery which will lead them to make prodigious efforts. They are now being schooled in war. Let the new troops learn to stand fire, and find after all the Germans are not so terrible, and there may be yet some fighting of the most fierce and sanguinary character. There is no school for making soldiers like actual war. Men who cannot be brought at first to stand fire may after a time, under the discipline of the battlefield be transformed into most efficient soldiers. If the French can find a leader who is capable of making brilliant military combinations, a man who can awake their slumbering ardor and cause them to believe he can lead them to victory, they may yet do something towards relieving that long list of almost unparalleled disasters which have followed in rapid succession since the commencement of the war. But it can hardly be that they can expel from their country their powerful enemy.

This war, however, has been a war of [illegible]. In a campaign of one month, at the beginning of which the whole world thought the advantage would rest with the French, the entire military system of that powerful nation collapsed, and France seemed to be wholly at the mercy of her enemy. But [illegible] armies have met and are meeting with a resistance in France since the overthrow of the organized armies of the country which the world little expected to witness. As the war has produced so many surprises, it is hardly safe to make any predictions as to its future. A success like that just achieved by the French near Orleans may be important or insignificant, according to circumstances. If a bold and capable leader can be found to make use of it, it may lead to greater results, but if it is not followed up—if irresolution and delay continue, when quick and vigorous blows should be struck it will come to nothing. If the French are to fight successfully they must go like a whirlwind. It is scarcely within the limit of possibility that they can [illegible] the lines of the Germans surrounding Paris, but who knows? It may be that the war is now about to enter upon its most interesting stage.

How it Looks Now.

There are the States of Missouri, Kentucky, New Jersey, Maryland, Virginia, Delaware, Alabama, Louisiana, Florida and Tennessee which have held elections, but returns are not full enough to indicate with any certainty the number of Congressmen elected by each party. The states still to elect are Connecticut, New Hampshire, California, Georgia and Texas. The number of members required for a majority in the House is 122. The above table shows 112 for the Republicans, as far as heard from. We estimate now that the Republican strength in the House will be about 140 members, and something like 40 majority. This is the great Democratic triumph that our neighbor of the *Herald* is bringing out his poultry to celebrate.

A Washington dispatch of the 28th ult has this in regard to Chief Justice Chase: "The Clerk of the Supreme Court has received a letter from Chief Justice Chase informing him that the Chief Justice will not be here to take his seat upon the Bench before the 1st of January. The letter is in the handwriting of Mr Chase's Private Secretary, with the Chief Justice's signature in characters resembling those of the well-known signature of John Hopkins to the Declaration of Independence. Justice Nelson has been notified that he will be called upon to preside at the coming terms. The best informed of the Chief Justice's colleagues do not think he will ever resume his official duties."

In various parts of Illinois, New York and other States, there were serious splits among the Republicans over local nominations which of course had the effect to aid and abet the Democrats. In Missouri there was a complete division of the Republican party on the State and Legislative tickets. It will be found that whatever apparent gains the Democrats have made are attributable to these causes and to the light vote that is always thrown in the "off year" of politics. A full vote always brings a general Republican triumph. The party never deviates on great questions and in such Presidential year it polls a full and united vote, with a victorious result.

A dispatch to the Sacramento [illegible] says that two days before the election the betting in the pool rooms was even on 75 000 majority in the State for Hoffman, $100 to $30 on 50 000, and $100 to $20 on 45 000. The telegraph puts it at about 30 000. It will be seen that by the enforcement of the Congressional election law the crowd of repeaters failed to get in twenty or thirty thousand ballots that were counted on.

A St Paul paper describes an extraordinary scene, probably the first of the kind ever witnessed in this country—the naturalization of fifty-one Indians of the Winnebago tribe. The object of the Indians in becoming naturalized was to acquire the title to their land, which as Indians located upon a reservation they could only hold temporarily. Wonder if Indians elsewhere will take the hint?

The *Herald* states, with every manifestation of pleasure that the notorious Jim Fisk the great gold gambler and swindling operator in Erie, has declared for the Democratic party. 'Tis a savory reputation Jim Fisk has. The *Herald* ought to be proud of him.

Secretary of the Interior

Columbus Delano assumes the duties of Secretary of the Interior [illegible]. His appointment in the place of Secretary Cox resigned will meet with general approval. Not only in Congress where he was an efficient member but especially as Commissioner of Internal Revenue Mr Delano has given evidence of ability. His management of the Bureau of Internal Revenue, to which post he succeeded upon the inauguration of the new Administration has been all that could be desired. He [illegible] in a manner which has confounded his enemies and elicited the admiration of his friends. He has industriously and honestly collected the revenue and thus shown that he was the right man in the right place. In now transferring him to a higher and more extended sphere of duty the President not only illustrates his own good judgment but he rewards and honors a faithful officer.

The *Herald* prints and gloats over a Democratic speech made by the notorious Jim Fisk recently in New York. But we observe that the *Herald* leaves out the most notable portions of the speech. Fisk said that he was going to make his 25 000 men employed on his railroads vote the Democratic ticket and observed also that he himself had a strong desire to vote three times a day. We regret that our neighbor while he was about it, could not find room for these Fiskian gems.

OREGON

Snow fell and covered the ground in Grand Ronde valley a few days ago.

Beatty Fawcett, accused of killing a man in Baker county has been set at liberty.

The Albany *Register* notes a considerable number of land sales in Linn county. The rates are about $25 per acre.

Blusford Smith one of the oldest citizens of Marion county who built the first mills on Silver creek, died last week.

There are one thousand and sixty farms in Linn county, the gross productions from which average about $2,000 each.

The trustees of the Salem public schools announce that the schools will be continued next week, as usual, they having been closed through fear of small pox.

Lieut. Lamson, late of the U S Navy, who did gallant service during the war of the rebellion, has returned to Oregon, and is now visiting his father in Yamhill county.

An organization has been recently formed in Salem known as the Young Men's Christian Association. Officers have been elected and the organization established on a permanent basis.

The Oregon Presbytery of the Cumberland Presbyterian Church, held its meeting at Abiqua, on the 13th of October. Arrangements are making by this denomination to build a neat brick church edifice at Salem.

From the Oregon City *Enterprise*: While Mr Archie Clark was engaged in lifting railroad timbers, one fell on him, injuring him so seriously that he died from the effects last Thursday morning. The deceased leaves a large family and relatives to mourn his death.

From the *Mountaineer*: O Humason Esq President of the Dalles Military Road Company left this morning for the Land Office of La Grande for the purpose of entering the land belonging to the company, some sixty thousand acres in the John Day valley, near Canyon City which was surveyed last summer. In a short time the company will enter their surveyed lands in Wasco county, which amount to about fifty thousand acres.

The up river boats, says the Oregon City paper have now sufficient water to make regular trips as far as Corvallis. The late rains have raised the river sufficiently to not interrupt transportation again this winter. Five steamers in the line are now on the route and the sixth one will probably be ready for service in two or three weeks. We learn that there is plenty of freight on the river waiting shipment. There are two boats daily up the river. It looks like business on the P T Company's wharf.

From the *Statesman*: Some week or so ago Mr Braxleton, a resident of Yaquina Bay, had a horse killed on the railroad track, about eight miles north of this place. The animal was in a pasture through which the road was constructed and the accident happened in the night. The engineer only saw the animal the instant the locomotive struck it, and the collision caused no damage at all to the train. Mr Braxleton made out his bill, proved the facts and the value of the animal and was paid the sum by the company and returned yesterday with the money.

The Albany *Democrat* of the 11th has this: We are informed that great consternation prevailed in Scio a few days ago by the announcement that Hon John Ostrander member of the late Legislature, was lying at his home in that city with the small pox. A Board of Health was appointed and the town was quarantined in less time than the last Legislature passed the appropriation bill to pay their board and the school was dismissed sine die. We have no later advices from that place, and do not know whether further developments justify the excitement or whether Mr Ostrander was really stricken down with that terrible disease.

A Blood Chilling Horror

A FRENCH STAFF OFFICER'S STORY OF A FRIGHTFUL SCENE BEFORE METZ

LONDON Oct 29—It is stated at Macy le Haut on the authority of a staff officer of Gen Picard of the Imperial Guard who claims to have escaped through the Prussian lines on the day of the surrender of Metz that on the day preceding Wednesday there took place the most awful scene ever witnessed in modern warfare. At 2 o'clock in the afternoon a compact mass of the unarmed people of Metz swarmed through the western gates of the city into the plain. They were of all ages and ranks in life of both sexes and numbered nearly or quite 10 000 persons. At the head marched a man and woman, the latter carrying a white flag. In their rear were hundreds of children all carrying little white flags. Behind them moved a strong body of French troops, pressing them forward into the plain. It is stated that these unhappy people were expelled because there was not food for them and that they were thus moving forth solely to seek the means of saving themselves from death within the walls. As they approached a Prussian orderly was sent to ride to the front ordering the outposts to fire on the mass. The people advanced still. When they came within range the Prussians fired on them. Still the people moved on, the man and woman in the front with the white flag moving more rapidly. The man suddenly fell struck by a bullet. The woman waving her white flag continued to advance, the children meanwhile screaming most piteously. The fire of the Prussians was kept up deliberately and steadily as if upon an armed column. The woman fell with her flag. The mass wavered for a moment then turned and fled in the most horrible disorder struggling, falling and involved in an inextricable confusion of the dead and dying and the fugitives. Still the Prussian fire grew constantly hotter. The French troops advancing to the front closed around the helpless mass of the flying citizens and a terrible fusilade began on both sides. The road was strewn with the bodies of women and children. The forts of LeVilleux and Les Bottes poured shell and shot among the Prussians till the last fugitive had disappeared, and the French troops slowly fell back, the motley crowd hurrying in all directions around the city walls and in at the different gates. They trooped from all sides down the streets and flung themselves down, children carrying bundles, mothers frantic with the loss of their children, in the Garde Place where all night long they lay on the pavements in dumb despair to await their doom of famine since averted by the capitulation.

LAST NIGHT'S DISPATCHES.

SPECIAL DISPATCHES TO THE OREGONIAN

The French Victory at Orleans

TOURS Nov 12—Over 1 700 Prussian prisoners captured at Orleans passed through this city to-day on their way to the south of France. There was great excitement. It was with difficulty that riots were prevented. The prisoners were hooted at and insulted but by the efforts of the greater part of the crowd, serious excesses were prevented.

Gen Von Der Tann's army notwithstanding he has been reinforced by the entire army from Chartres is in full retreat. Gambetta has gone to Orleans.

VERSAILLES Nov 12 via Berlin Nov 12—Gen Von Der Tann reports to headquarters here to-day that there has been no further advance of the enemy in his front.

Capture of Verdun

BERLIN Nov 12—Official reports of the capture of Verdun are published. Two Generals, eleven staff officers and one hundred and fifty officers were captured. Besides [illegible] guns 23 000 rifles and a large amount of stores and ammunition fell into the hands of the Prussians.

Further details of Recent Battles

LONDON Nov 12—A special dispatch from Tours has the following details of the recent victory of Daurelles over Von Der Tann not yet published. The engagement commenced both east and west of Orleans on the 9th and was continued until the evening of Thursday. During Thursday the French drove the Prussians from Orleans inflicting a severe loss on them and are now in occupation of the city. Gen Von Der Tann with the remnant of his army is now retreating on the road leading from Orleans to Pithiviers after vainly endeavoring to free his way through Chateau Neuf and Montargis where he hoped to join the army of Prince Frederick Charles. Gen Daurelles has a force of 90 000 men on the north bank of the Loire and 60 000 on the south bank. The destruction of roads and bridges between Commercy and Orleans prevented the advance of the army under Prince Frederick Charles. He has about 50 000 men, a great part of whom are probably north of the Marne. After having disposed of the remnant of Von Der Tann's army D Aurelles will march directly on Paris and assail the German lines between Versailles and St Germain, while Trochu will make a sortie with 150 000 men to cut his way out and raise the siege. Communication between D Aurelles and Trochu and the Government at Tours is constantly maintained by carrier pigeons.

A dispatch from Rouen yesterday says a force of 50 000 Prussians well supplied with cannon entered Bonners that day, but were driven out with great loss by the Garde Mobile and Franc Tireurs.

New York World's Dispatch.

LONDON, Nov 12—A special to the *World* from Tours to-day, says the whole loss of the Bavarians in the battles of the 9th and 10th was 3 140 men, killed, wounded and prisoners. Von Der Tann's effective force on the morning of the 11th was estimated at 20 000. He was then at Toury, twenty five miles north of Orleans, where he was joined by Gen Whittish and Prince Prinz [illegible] Charles, who with one division of infantry and one of cavalry, 12 000 strong marched from Chartres to his aid. On the evening of the 10th he was further reinforced by the Duke of Mecklenburg's corps composed of 23 000. General D Aurelles employed in all engagements up to the 9th and 10th a force of 75 000 men. To day he has not brought the same force into action, but will bring up 100,000 strong, holding 50,000 in reserve. He intends to attack the Germans at Tourey to day or Sunday. The French army is elated at its victory and anxious for attack.

The Government at Tours believes that Prince Frederick Charles is advancing from Commercy and will not be able to effect his junction with Von Der Tann before the 15th.

The French have concentrated a large force at Bauvais and Paisors, their line extending as far as Secondelle, Lyons and La Forel. They are well provided with artillery. A battle will probably occur on the banks of the Epte, near Gournay in Bray or Grisors.

Change of Feeling in England

LONDON Nov 12—The whole tide of popular feeling now in England is running strongly in favor of the French. The *Times* feeling this influence has changed its tone and urges Germany to make peace and withdraw from France while she may do so with safety.

CALIFORNIA.

From San Francisco

SAN FRANCISCO Nov 13—B C Whiting Superintendent of Indian Affairs for California and Arizona, has just received a notification from the Interior Department that the Indian Superintendency of Nevada has been discontinued and the charge of Indians in that State transferred to the California Superintendency. The discontinuance is probably made from motives of economy.

Charles Mebah aged 7 years, died last night from being run over by a wood cart.

The First National Gold Bank of California has rented the building, 408 Montgomery street and will be ready for business about January 1st. President Phelan has gone east to deposit the bonds and receive notes.

Vessel Wrecked.

SAN BUENA VENTURA, Nov 13—The brig *Advance* which went ashore at Hueneme Point last Sunday, was abandoned to day and the crew are stopping here. She has dragged her anchor through quicksand until hard aground and breakers have thumped her to pieces. She had part of a cargo of barley aboard.

Nevada Riot and Bloodshed.

HAMILTON Nov 13—A dispute between parties for possession of the Banner and Create mines at Pioche city culminated in a pitched battle at that place on Wednesday last in which W G Soel was killed and some ten others wounded. During the fracas two men were precipitated down the shaft of the mine some 70 feet but they escaped with but few slight bruises. It appears that the Banners drove workmen from the works on Tuesday evening and took possession holding the mine until five o'clock Wednesday afternoon, when they were driven out by a party of miners. Trouble had been looked for all day for it was rumored around town that a party were arming to take possession of the mine by force if necessary. At the time of attack the trouble was supposed to be over for the day at least but as soon as firing commenced the mountain side was black with people. The crowd was allowed to approach within a hundred yards when they were halted and forbidden to come nearer. None of the wounded are considered in any great danger but their wounds are very painful. The following are the names of those wounded: James Finley, Thos Newland, Jack White, Albert Daliff, John Morgan and — Courtney. The names of those who fell down the shaft are not yet ascertained. Over sixty shots were fired in the skirmish. The parties retaining possession of the Create Mine after the fight were arrested by Sheriff Kane on Wednesday evening. They were brought before Justice Clapp on Thursday morning, and upon their waiving an examination were held under $5,000 bail which was given.

SAN FRANCISCO Nov 13—The schooner *H M Hutchins* arrived from Ounalaska in ballast.

The steamer *Constitution* from Panama, came in at 7½ o'clock this afternoon.

The United States Quartermaster's steamer *Newbern* sailed on her last trip for Sitka to-day.

The weather is the finest we have had this season, no wind, clouds or fog, air warm.

General Phineas Banning now in this city has in contemplation the formation of a company to build a railroad from Los Angeles via San Bernardino, San Gorgonio Pass, the Mongonga Pass and Williams Fork or Fort Mojave to Prescott Arizona which would follow in the main route of the projected thirty fifth parallel road.

The *Constitution* brought but a trifling amount of treasure. She has 138 boxes tropical fruits.

Wm Burns purser of the P R R Company's ship *Costa Rica* was drowned at Punta Arenas on the down trip.

This evening about half past six o'clock Louis Gaxt, cargo trimmer in the employ of Casebolt & Co was attacked by a gang of Barbary coast pirates with whom he had some words. They knocked him down, broke his jaw and nearly murdered him before assistance reached him. He was taken to the hospital in a critical condition. Assailants escaped.

The Yakima Country

From the Dalles Mountaineer

The trade between this point and the country lying north of us in Washington Territory is gradually assuming gigantic proportions. Hardly a day passes during the present season of the year but we see the wagons of the Klickitat, Yakima and the other valley adjacent in our streets leave loaded with goods to be taken home for the winter. That section of country has been so rapidly filling up lately that the trade has now become of considerable importance to this city and we should do all within our power to retain it. We predict, that in course of a year or so it will be found necessary on account of the increase of travel to run a steam ferry boat between this city and Rockland on the opposite bank of the river. The Yakima is a large country and capable of sustaining a large population, and which in the natural course of events it is destined to have, as the inducements held out by this section of our country for stock raising, is superior to that of any other portion of the United States, even Texas not excepted. Persons in search of good homes must hurry up or they will be too late to make choice selections of lands. If they wait until all the lands are gobbled up by the railroad they will be compelled to pay double the present price.

A road surveying party which has just returned to Albany from east of the mountains tells the *Democrat* that Messrs Warner and Suttle of their party killed an enormous grizzly bear between Crooked river and Harney Lake. The beast's paw measured 10 inches in length and it is believed that his weight would have reached 800 or 900 pounds.

MONDAY MORNING NOVEMBER 14 1870

CITY.

THE AMENITIES OF THE LEGAL PROFESSION.—The other day a number of professional gentlemen (law) assembled at the United States Circuit Court room and organized themselves into a mutual admiration society having for its purpose the evident intent to do up the Honorable the Judge of the 13th Judicial Circuit in such phrase as would in some slight degree ameliorate the rugged paths of judicial life. The organization was effected by selecting as the Chairman of the meeting a Judge who had been once similarly affected by a similar association of professional gentlemen (law) in California. One of the association of professional gentlemen (law) then rose and addressing the Chairman proposed a series of resolutions declaring as the unanimous sense of the professional gentlemen (law) then and there assembled that the Honorable Judge of the 13th Circuit was a Judge of such learning and ability, a Judge so sternly persistent and constant in his endeavors to promote the general welfare of justice among the litigants of his circuit, as to excite among the gentlemen of the aforesaid associations sentiments of esteem and confidence, to say nothing of those other sentiments not mentioned but which might have been the possession and the exercise of which do honor to the human heart declaring further that the said Judge, (the one specially under the admiring eye of the Association) was a Judge possessing such courtesy forbearance and kindness that the members of the Association that the members thereof were in their individual and associated capacity, indebted to him to such an extent as t make their sincere thanks and declaring further the desire of the Association of professional gentlemen (law) that the Honorable Judge should be informed of the sentiments of the members of the Association, and that these sentiments be entered in the records of the court.

Whereupon, as the short hand reporters of debates would say, one of the professional gentlemen arose and explained what the professional gentlemen meant by saying they entertained sentiments toward the Honorable Judge.

At this point in the proceedings of the association, Judge S. (not now on the bench) arose to the propriety of such proceedings in general, though he was not prepared to say he had objections to the proceedings in this particular case, though he would not urge against similar proceedings in general.

Mr. G., an attorney, was proud to say that he had a long and intimate acquaintance with the Judge that it had been his fortune in the prosecution of his professional (law) duties to practice before the honorable Judge for eleven years, (we are precise in saying eleven years, as Mr G said distinctly "eleven years,") and he (Mr G) had always found him (the Honorable Judge) to be a courteous kindly and Christian gentleman—and much more to similar effect.

Mr. ——, attorney, was also proud to say he had intimately known the Honorable Judge for six years (we are precise in saying six years as Mr. S. said "six years") and he (S) had always found him (the Honorable Judge) a courteous, kindly Judge etc

He thought it as his deliberate conviction that the association of legal gentlemen owed to the judicial gentleman (meaning thereby the Honorable Judge) to acknowledge him to be a paragon of learning, ability, courtesy and kindness as he was described to be in the resolutions under discussion.

Mr. S. (again) Judge S., (not now on the bench) to say that he would now withdraw his objections to the proceedings in this particular case. He still had objections to similar proceedings in general, he was now convinced that there were no such objections to the proceedings in this particular case. If the Honorable Judge had enjoyed the practice of his friend Mr G for 11 years and had still remained a courteous kind and forbearing judge and gentleman, if the Honorable Judge had suffered the acquaintance of his friend Mr S for six years and still remained a courteous kind and forbearing judge and gentleman, he (Judge S not now on the bench,) could not conceive himself that it would be right to deny that the Honorable Judge is really a courteous kind and forbearing judge and gentleman. If he had heard the remarks of his friends Messrs G and S he should, upon reflection, and remembering how much the honorable Judge had suffered at the hands of his friend, Col C for the last two weeks have hesitated to deny that the honorable Judge was courteous, kind and immensely forbearing Judge. He should now vote to adopt the resolutions as the sentiments of the association.

Whereupon the irreverent members of the association of professional gentlemen (law) laughed and adopted the resolutions, and they are now to be the sentiments of an unanimous bar.

"PREVAILING DISEASE" AT SALEM.—A correspondent at Salem writes that "there are at least thirty persons in Salem, and a number in the surrounding country affected with the 'prevailing disease.' There is still a difference of opinion, not only among common people, but among physicians, as to the proper name of the disease. The very mild type of the disease, if it be small pox may be accounted for by the fact that two years ago when there was a scare of small pox everybody was alarmed and resort to vaccination was very general. With all such it assumes the mildest form. There are, however several small children who were not vaccinated who have now all the symptoms of the genuine small pox. The public school has been dismissed on account of the prevalence of the disease and will not open again before the 1st of January. Due notice will be given in the papers."

THE THEATER.—The second performance of "The Angel of Midnight" brought out a full house Saturday evening. JUDGE SAWYER TO THE LAWYERS

On Saturday leaving for San Francisco Judge Sawyer addressed the following note to Judge Deady Chairman of the Bar meeting of the day previous:

PORTLAND Nov 11th 1870

HON MATTHEW P DEADY Chairman etc—Dear Sir: A copy of the resolutions this day adopted at a meeting of the members of the Portland Bar over which you are called to preside has just been received.

In acknowledging the courtesy allow me to say that the resolutions only embody the united expressions in terms I fear too flattering of that courtesy respect and kindly feeling with which I have at all times been greeted by the individual members of the Portland Bar during my short sojourn among you.

Please convey to the Bar my sincere and profound thanks for the kind consideration with which I have been received and express to them the satisfaction I feel at the auspicious circumstances under which the relations between us likely to be longer continued as members of the bench and bar have been commenced. Mutual confidence and esteem between the counsel and the court are essential to the due administration of justice. I trust that their essential requisites may never be wanting in any future intercourse either public or private.

I cannot allow this opportunity to pass without expressing to you sir personally my sincere thanks for the cordiality and kindness with which you have received me. We are henceforth to labor together in the administration of justice and I trust that our association so auspiciously begun may continue through many years and that it may prove as advantageous to the public as it promises to be agreeable to ourselves.

I am very respectfully yours etc

TARRANT'S SELTZER APERIENT.

Health's Foaming Elixir.—The volatile principle of the Seltzer Spa Water is lost in crossing the Atlantic. It reaches this country stale flat and unprofitable. But in TARRANT'S EFFERVESCENT SELTZER APERIENT this matchless natural remedy for dyspepsia biliousness and constipation is reproduced in all the sanitary perfection of the original Spa as freshly drawn, and drank foaming at the fountain side. It requires but an instant to improvise the delicious draught and for all the disorders of the stomach, bowels and liver, prevalent at this season it is—in the opinion of our ablest physicians—a safe and admirable specific.

Before Sedan

The dead hand clasped a letter

Here in this leafy place
Quiet he lies,
Cold with his sightless face
Turned to the skies
'Tis but another dead
All you can say is said

Carry his body hence —
Kings must have slaves
Kings climb to eminence
Over men's graves
So this man's eye is dim —
Throw the earth over him

What was the white you touched
There at his side
Paper his hand had clutched
Tight ere he died —
Message or wish may be
Smooth out the folds and see

Hardly the worst of us
Here could have smiled —
Only the tremulous
Words of a child —
Prattle that has for stops
Just a few ruddy drops

Look She is sad to miss
Morning and night
His—her dead father's—kiss
Tries to be bright
Good to mamma and sweet
That is all *Marguerite*

Ah if beside the dead
Slumbered the pain
Ah if the hearts that bled
Slept with the slain
If the grief died!—But no —
Death will not have it so

To Stop Using Tobacco —Dr Dio Lewis says I know I do not echo the voices of the wise ones of the world when I say that the use of tobacco paralyzes and deadens the moral sensibilities almost more than any other habit in which civilized men indulge Gentlemen, I advise you to clean yourselves and quit I would give it up It is a nasty disgusting, ruinous habit But somebody says, 'I can't give it up I want to and have tried, but I can't do it' Can't you? Then I wouldn't But if you are really so enslaved that you can't get out of your chains I will help you a little Stop to night. Don't use any to-morrow The first day will not be so hard You can get along pretty well the first day as every one knows who has been through the mill, as I have been The second day is pretty bad In the afternoon of the second day your memory is a little doubtful You can't exactly say whether it was two or three brothers that came over You can't exactly say whether your grandfather came from the East or the West when he settled here But be patient on the second day On the third morning comes the tug Now go and take an old fashioned alcohol sweat until your body is nearly parboiled Then you will be just as comfortable for one day as you could wish There is no dryness of the mouth no disturbance of the secretions You are in trouble again the next day but not so bad as the day before Take another sweat take even a third and a fourth one Sweating does not hurt people sometimes it is good for them Take three or four thorough sweats and then you will go ft under easy sail, and will have no further trouble from your enemy

The Census —The constant complaints from large cities where the census returns are considered inaccurate do not impair the confidence which Superintendent Walker places in the returns received The most frequent complaints come from New York Baltimore and Philadelphia where tables have been prepared and forwarded to the Census Office to show that the figures furnished by the enumerators must be too low As to the returns from New York, Gen Walker thinks it is easy to see that there has been great loss in the last ten years on account of the increased proportion of those who do business in and reside outside of the city The small towns within a few hours ride of New York show enormous increase which is wholly attributable to this cause The loss of population in Philadelphia is explained at the Census Office as a consequence in the falling off of manufactures and the consequent dispersion of the laborers The failure of Baltimore to come up to the promise of the latest enumeration under municipal authority is believed to be owing to the cessation of the war and the falling off in trade which was carried on during and directly after it with Virginia and other points South which is now divided with other Southern States Those making complaints seem to be ignorant of the fact that neither the Superintendent of the Census nor Secretary of the Interior have anything to do with the selection of enumerators nor the power to remove them a circumstance which has caused much embarrassment in some cases Gen Walker believes the total population of the country will be between thirty eight and forty millions

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES?

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL San Francisco Established in 1854 for the treatment of Sexual and Seminal Diseases such as Gonorrhea Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrible situation thousands suffer until death closes the scene Let parents guardians friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cured for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and the [illegible] Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness

Seminal Emissions the consequence of self-abuse This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory hectic flushes pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats monomania and frequently insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of affecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case symptoms length of time the disease has continued and [illegible] medicines [illegible] forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate

Beware of the San Francisco quacks and pretenders who with bogus sworn-to certificates, dupe the unwary Some of these self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and their places, are tradesmen, and became too lazy to work at their trades Some are tinsmiths shoe makers newspaper carriers, intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians in eight cases out of ten, are bogus there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

Address DR J F GIBBON 623 Kearney street corner Commercial (Private Entrance on Commercial) San Francisco Post Office Box 1952

REMEMBER TO PUT BOX 1952 ON THE LETTER

THE RIVERSIDE
HOMESTEAD ASSOCIATION!
OF
EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock

Application for ONE HUNDRED SHARES was made before the books were opened, and a large number of shares have been taken

The following extracts from the Oregonian [illegible] will convey a good idea of the plan and workings of the Association, the location of the land, etc, etc.

RIVERSIDE HOMESTEAD ASSOCIATION.

The association of whose organization we gave an account a few days since, is now ready to dispose of shares As it is with one exception, (the Portland Homestead Association,) the first organization of that kind in this city, it may be well enough to state what are its purposes, and the manner in which it is proposed to conduct its operations The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word They are organized for the profits of their investment upon the natural advance in the value of their lands consequent upon the co-operation of many persons —shareholders—and the advance in values of surrounding lands by reason of the steady population and demand for many years [illegible] still near the city The Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the nearest boundary line being about one mile from the ferry landing at East Portland The tract lies in one strip along the Wallamet river, half a mile in length and another strip along the Oregon and California railroad half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between them) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square (with streets running at right angles) and 80 fractional lots along the river front The shares number 600 worth $50 per share. It will be seen that a share thus represents nearly a lot with an undivided interest in the 80 fractional lots. The fractional shares are to be sold off at the [illegible] for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all the shares are taken and the Association shall determine to do it, the choice of [illegible] will be put up at auction to the highest bidder the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole [illegible] Thus, if a person wants a particular lot of land and is willing to pay $100 or $200 [illegible] or less as the case may be for the [illegible] the lot or block as his individual [illegible] premium being divided among the whole body of shareholders It will be seen [illegible] everything is co-operative, and [illegible] mutual No man can make a dollar [illegible] without also making a dollar for every other shareholder There is no chance for [illegible] the property by some chance, should [illegible] far below the first actual cost. [illegible] liable to happen in the case of the tract of land must be judged by each for himself but considering the steady and [illegible] advance on real estate in this city [illegible] hood, and at East Portland and vicinity, for the last year or two it seems hardly [illegible] values to go back

In the Riverside Association all precautions seem to have been taken to guard against monopolies of shares No person is allowed to buy more than the number of shares [illegible] three blocks, or twenty-four lots, and [illegible] terminating the operations of the [illegible] restricted in the same manner. The [illegible] shares may pay down $50 per share, [illegible] exempt them from all [illegible] pay $10 quarterly with an [illegible] share payable with the first [illegible] liable in this latter case to another [illegible] other) assessment of $3 per share. Upon the payment of the shares in full, [illegible] as above, the holder is entitled to [illegible] and his proportion of all the [illegible] all sources. No officer of the [illegible] any pay for services. [illegible] gets $25 per month, so it will [illegible] expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, [illegible] above the water There is no part of [illegible] row of blocks but commanding [illegible] Portland and the river for miles up and down stream That part of the tract lying along the railroad is every foot of it, of the [illegible] soil and adapted to gardening, [illegible] tiful little stream of pure water [illegible] almost the entire length of the [illegible] affording the means of irrigation, and [illegible] ficient to supply pure water to [illegible] whole tract There is not a waste [illegible] lot in the entire tract Under all [illegible] tages it would seem impossible [illegible] be any chance of loss to shareholders [illegible] year each shareholder, if he chooses, may get perfect title to as many lots as his shares [illegible] represent or he may continue his [illegible] vided with the Association while the association may exist.—Oregonian

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks [illegible] fact that the subject of making [illegible] skirts of this city and East Portland [illegible] dis used here among all classes, and [illegible]

Riverside " just south of East P [illegible] been established The site selected [illegible] ing a little over a mile south of the ferry landing [illegible] shaped like the letter H, one side of which [illegible] in long [illegible] borders on the river

From this portion of the [illegible] but a little above the other prong of the H, [illegible] forty or fifty feet above the river, [illegible] sive view of Portland, East Portland, the shipping [illegible] the Willamette river for several miles. The land is [illegible] fertile and partly covered with [illegible] tract of land just wide enough for two rows of blocks with an avenue between them, [illegible] of the H which has already been described [illegible] the east This last tract of land is [illegible] valley which is now under a high state of cultivation Through its whole length runs a trout brook, the water [illegible] as clear as crystal. With a [illegible] [illegible] to have water conveyed through [illegible] to every portion of the homestead.—Daily Bulletin.
